

# Library

4. Interface Requirements -
- User Interface
  - Database Interface
  - Integration Interface.

5. Performance Requirements -
- Response time should be minimum
  - Real time updates
  - Interface Booking & managing interface.

6. Design Constraints -
- System should comply with industry standards
  - System should compatible with existing software & hardware

7. Non-Functional attributes
- Portability
  - Reliability
  - Scalability

Preliminary schedule & Budget -

Estimated timeline: 6 months

Estimated budget: ₹ 500,000
